

Bird Spikes for your
safety and healthy
lifestyle.

Not Harmful to
birds.

BIRD SPIKES

Bird spikes are an ideal solution for bird control in office buildings, hotels, hospitals, residential homes, warehouses, factories, and more. They effectively prevent birds such as pigeons, crows, and kites from landing, perching, or roosting on surfaces like windowsills, ledges, and air conditioners. These spike strips serve as a humane deterrent—without harming the birds. Upon encountering the spikes, birds simply avoid the area and fly away safely, making this method both effective and animal-friendly.

Manufactured from durable, weather-resistant polycarbonate, these bird spike strips are 300mm long and feature breakable segments for easy customization. Designed to interlock during installation, start from the far edge and snap off any extra segments that don't fit. Use the removed segments to fill gaps, ensuring a seamless and secure fit along the entire length.

Installation Guidelines

Step 1: Clean the Surface

Thoroughly clean the area where you'll install the bird spikes. Remove dirt, dust, and debris using a brush or cloth. Ensure the surface is dry for the best adhesion.

Step 2: Customize the Bird Spikes

Measure the length of the surface and break the bird spike strips into appropriate segments. Interlock the strips as needed to cover the entire length without gaps.

Step 3: Apply Glue and Position the Spikes

Apply a strong, weather-resistant adhesive along the base of the bird spike strips. Press the strips firmly onto the cleaned surface, starting from one edge and working your way across.

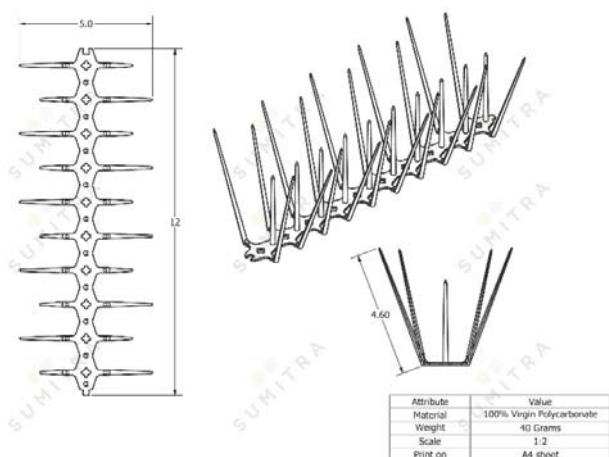

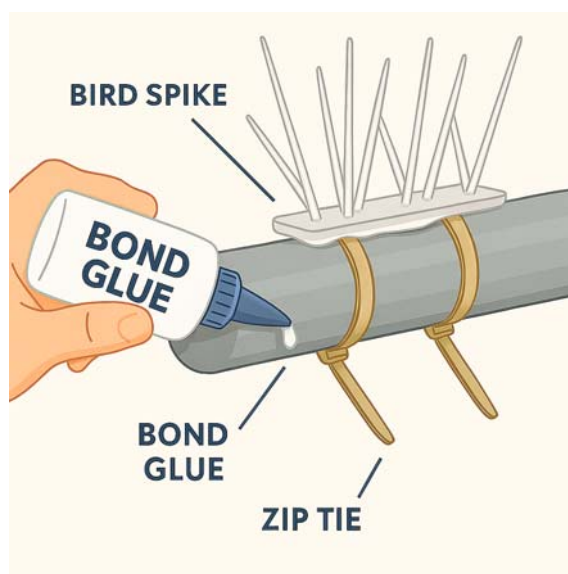

Step 4: Secure with Zip Ties

For extra stability, use zip ties to fasten the spikes to any suitable fixtures like railings or grilles. This ensures the spikes remain secure in all weather conditions.

Step 5: Secure with Screws

For a more permanent installation, use screws to fasten the bird spike strips onto wooden or solid surfaces. Drill small pilot holes if needed and screw the strips in place, ensuring they are firmly fixed.

EASY 4 STEP INSTALLTION

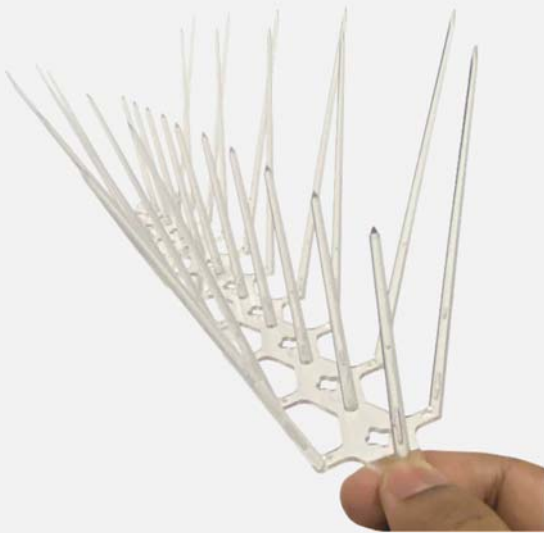

Why we are best:

- **Humane:** Keeps birds and pests away without harm; they simply fly or move away.
- **Harmless:** Blunt spikes prevent perching; smaller spikes deter rats and vermin safely.
- **Flexible:** Fits curved surfaces and pillars; can be cut to size for perfect coverage.
- **Weather Resistant:** Made of durable polycarbonate that withstands all climates.
- **Safe:** Non-conductive; safe near antennas, cables, and electrical setups.
- **Cost Effective:** Easy to install, maintenance-free, and reduces cleaning costs.
- **Discreet:** Transparent design blends well with building surfaces.

Specifications:

Name	Code	Length	Breadth	Height	Weight	Base width	Packing
Bird Spikes	BS3	305 mm	120 mm	110 mm	39g	45 mm	240pcs/ carton

Bird/ Monkey Protection Spikes:

BS3 Spike (40 Gram)	
Name	Bird Spike
Code	BS3 Prime
Length (mm)	305
Breadth (mm)	120
Height (mm)	110
Weight (g)	39
Base width	45
Material	Transparent Polycarbonate
Packing	240 pcs / carton

BS3 Spike (30 Gram)	
Name	Bird Spike
Code	BS3 Supreme
Length (mm)	305
Breadth (mm)	115
Height (mm)	108
Weight (g)	29
Base width	38
Material	Transparent Polycarbonate
Packing	320 pcs / carton

BS2 Spike (36 Gram)	
Name	Bird Spike
Code	BS2
Length (mm)	330
Breadth (mm)	125
Height (mm)	95
Weight (g)	36
Base width	32
Material	Transparent Polycarbonate
Packing	250 pcs / carton

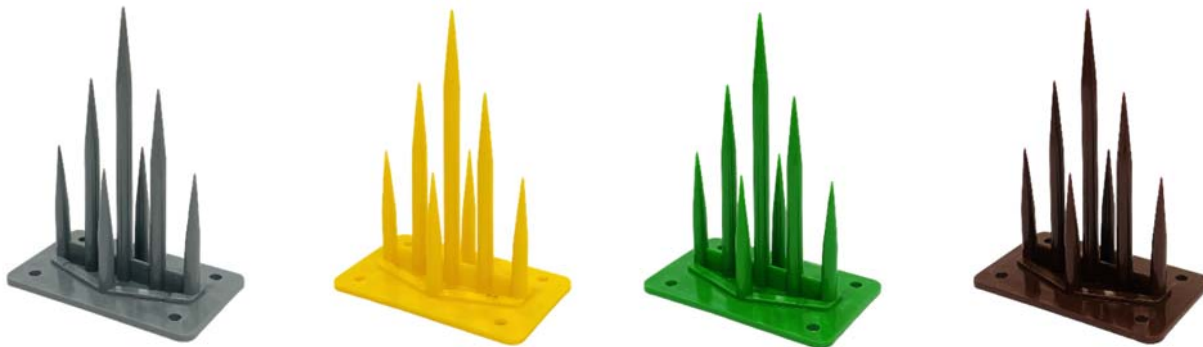

Dog/cat Protection spikes:

Applications:

- On cameras
- On car covers
- On air conditioners
- On Scooter covers

More Colours Available

Name	Code	Length	Breadth	Height	Weight	options	Packing
Dog Spike	DS5	70 mm	43 mm	90 mm	13 g	Multi colour	700 pcs/ carton

Upcoming Soon: Invisible Grill Fastner

Application:

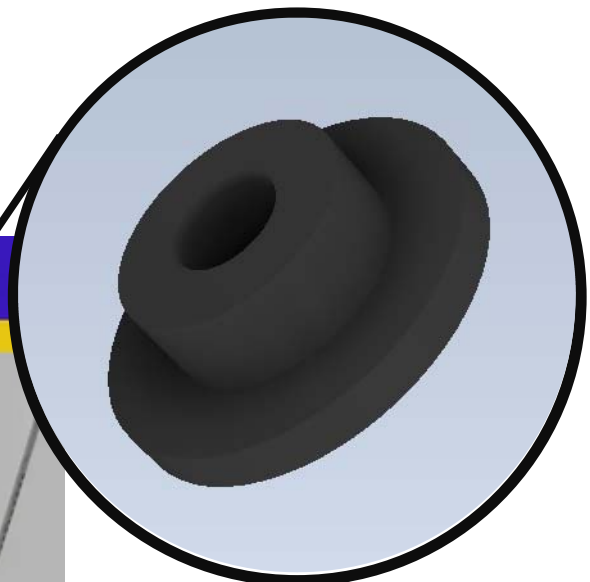

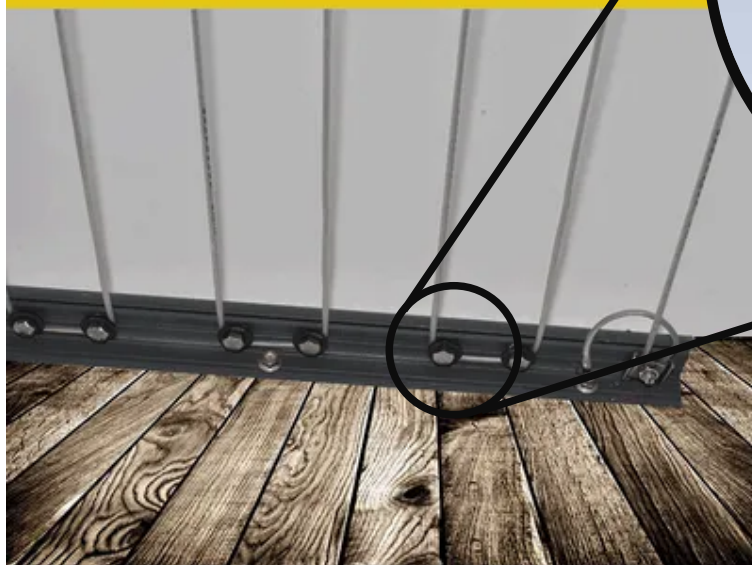

- Invisible Grill channel fasteners for wire looping

Features:

- Thick base
- Sits Flush on aluminium channel
- 5mm space for screw
- Light weight but strong
- Nylon Material (High resistance to wear)
- Can take human weight easily

Direct Installation NO need Tie a knot
